A-1000 CONCRETE STAIN

Americrete

Decorative Overlays • Sealers • Waterproofing

Americrete A-1000 concrete stain is used for enhancing the appearance of concrete. Use on industrial floors, concrete pool patios, walkways, driveways, and commercial floors. It is a one step stain and seal for light traffic saving you time and money. Americrete stains are available in these stock colors (reverse side) or can be tinted with universal colorants.

Color samples are for reference only. Coating colors are affected by many factors including lighting, age, type of finish, type of substrate, and adjacent colors. Actual coating colors will vary from these samples. If final appearance is critical, coating should be tested on actual surface before a full application.

* **Interior & Exterior**
* **Non-Fading**
* **Natural Finishes**
* **Tintable System**
