Benefits of Life Deck® AL System

- Low Maintenance
- Skid Resistant
- Economical
- Durable Yet Flexible
- Fast Drying
- Waterproof

The Industry Leader for Both Plywood & Roof Decks

The Life Deck® AL (Acrylic Lath) ICC-ESR 2701 Waterproof Decking System is the industry-leading Class "A" Fire Resistant System for plywood decks. Installed with a series of two cementitous applications bonded together with a specially formulated acrylic emulsion and sealed with a 100% acrylic top coat. Life Deck® AL System was developed by chemists, applicators and industry leading professionals and designed for both commercial and residential uses. It is the industry leader in longevity and durability.

Procedure

4 Easy Steps to Seal, Preserve and Waterproof Your Deck or Surface*

Industry Leading Professionals:

Millions+	Number of square feet of AL System installed across North America.
1000's+	Number of HOA's, custom homes, multi-family projects that have AL System installed.
1000's+	Number of city buildings, schools, hotels, commercial properties that have AL System installed.
55+	Number of years Life Specialty Coatings has been in business.
10+	Total warranty given after a 5-year deck safety inspection.
3	Number of generations Life Specialty Coatings has been family owned.
0	Number of AL deck failures caused from our product.

"I haven't had one failure. The quality is there. The durability is there. It is a very, very good product. I have been using this system for over 20 years."

- Robert M Lead Installer 25+ years

Advantages

Independently Lab Tested
Undergone the most rigorous International Code Council (ICC) testing requirements for waterproofing systems, ESR-2701.

ASTM Class-A & 1 Hour Fire Rated
Passes ICC third-party testing requirements.

6,200+ PSI
The AL system has unmatched strength and durability. Our high solids modifier and proprietary blends are able to withstand some of the highest abrasion ratings for pedestrian traffic waterproof decking available on the market.

UV Resistant
The system is designed to withstand the tough UV rays of the sun, even in the harshest of climates. For up to 30% surface temperature reduction, seal your deck with our heat reflective coating. Save your feet!

Safe and Durable Anti-Skid Finish
The system is naturally designed with a non-skid, yet decorative finish.

130 mph Wind and Hail Storm Rated
Passes ICC third-party testing required for hurricane force winds and storms.

LAUSD Approved
Used consistently by some of the largest cities and school districts in the United States.

Excellent Sound Reduction
Helps to eliminate excess sound from foot traffic.

Passes ASTM Freeze-Thaw Cycles
Designed to take snow, sleet, heat and harsh elements.

Harbor Towers - Long Beach, CA

"The AL system is our #1 choice for waterproofing plywood decks. We have installed many thousands of square feet of this system with no failures. We have installed other systems before, but the AL system has proven to be a very durable, long lasting and decorative system. On top of it all, their training and customer service is one of the best in the industry."

- Alain V, Waterproofing and General Contractor, 20+ years
