- Breezeways
- Garage Floors
- Kitchens
- Restaurants

Our mission at Life Specialty Coatings is manufacturing long lasting coating products, superior customer service and reliable technical support. That's our commitment . We will do everything possible to strengthen the relationships we make -- so you can too.

ACRYLIC COATINGS

NAME	SKU	DESCRIPTION
Color Seal	10 Series (Best)	As the go-to choice for contractors, property managers, and building owners, this concrete/masonry pigmented coating dries rapidly, offering superior resistance to water, alkalis, acids, UV light, and stains. Ideal for deck resurfacing, new construction, and repairs. Available to be tinted in thousands of custom colors.
Cool Life® Heat Reflective Color Seal	28 Series (Premium)	Experience cool comfort with our Cool Life 28 Series Heat Reflective Coating. This premium, quick-drying, concrete and masonry pigmented coating sealer is designed to reduce your concrete pool slab or deck's surface temperature by up to 25-30%. Safeguard your deck against infrared rays, water, alkalis, acids, and UV light. This coating stands up to ponding water, making it the ideal choice for a refreshing and safe poolside oasis or any outdoor deck.
Safety Coating	15 Series (Specialty)	Elevate safety and aesthetics with the 15 Series formulated for sealing concrete incorporating a fine aggregate for enhanced slip resistance. Enjoy peace of mind with skid-resistant technology.

EPOXY COATINGS

TYPE	SKU	DESCRIPTION
Water Based	25 Series (Thin Build) 14 Series (High Build)	Unlock the full potential of your surfaces with our water-based epoxy products – an unparalleled choice for garages, commercial kitchens, industrial shops, and warehouses. Our versatile water-based epoxy also serves as an exceptional primer for waterproof decking systems and resurfacing systems on pool and balcony decks.
100% Solids	31 Series (11 Hr. Dry) + 33 Series (6 Hr. Dry)	Elevate your surfaces with our 100% Solids Epoxy – meticulously crafted to seal, protect, and enhance aesthetics. The 100% solids epoxy options boast high chemical resistance, heat resistance, and impeccable gloss retention, while two-component urethanes and polyureas excel with UV and scratch resistance.

URETHANE COATING

TYPE	SKU	DESCRIPTION
CRU	LD-2025	Experience superior protection with our chemical resistant urethane coating. This UV-resistant, mar-resistant, and chemical-resistant product delivers unmatched durability. With an ultra-low VOC it's suitable for moderate to strong chemical environments and heavy traffic areas.

Please Note: These color chips are produced as accurately as possible, however, paint colors are affected by many factors including lighting, age, type of finish, type of substrate, and adjacent colors. Actual paint colors will vary from these samples. If final appearance is critical, product should be tested on actual surface before a full application.
