Americrete Inc
MANUFACTURER OF DECORATIVE OVERLAYS & SEALERS

Degreaser
A-100

Product Description

Degreaser is a fortified concrete and multipurpose cleaner that is designed to clean and lightly etch the surface simultaneously. The primary use is to remove deeply penetrated oil stains and contaminated surface residue.

Primary Uses

Concrete, stone, machine shops, kitchens, pool decks, engines, mobile washers, masonry, industrial floors, driveways, gas stations, stamped concrete, freezer floors, parking garages, food service companies and trucking companies.

Product Benefits

Biodegradable an environmentally friendly. This product is high in alkalinity for tough to clean soils and grease. It has no streak rinsing and is non-toxic. Degreaser is USDA compliant.

Coverage Rate

The coverage rate for Degreaser is 300-400 square feet per gallon. This product is not to be diluted for heavy duty purposes, but for daily cleaning it can be diluted 1:1 with water.

Application

Degreaser is to be applied to a clean surface free of loose debris. Apply Degreaser to the surface and broom the Degreaser over the entire surface. Allow to set for 30 to 60 minutes then rinse or pressure wash off. The Degreaser will foam upon rinsing. Rinse until all foam residue has been washed away.
